2024 Spring Course Catalog

Welcome to Oxford Hills/Nezinscot Adult Education and thank you for your support and encouragement to all of our students, teachers and staff as we continue to chart our course through flowing waters and shifting horizons within our lives and around the world.

To the Adult Ed Teachers and Staff: Tina, Heidi, Aimee, Jeanna, Connie, Marcia, Jerry, Brett, Kevin, Eli, Kathleen, Kate, Becky, Chris, Paula, Dorene, Donna, Merle, Sarah, Steve and Charissa, your patience, exuberance, and faith keeps us all moving onward and upward toward our personal and educational goals. To the many Adult Ed Students: your persistence, resistance and resilience has shown us what true human strength and guts can really accomplish. You are our educational champions!

Special thanks to our two wonderful volunteers – Art and Anne who are working with a few of our students!

To the guests, friends and families: You provide tremendous support and encouragement to each and every student. Thank you!

We hope that you will take some time to peruse our catalog of great classes and sign up for the ones that pique your curiosity.

Thank you for simply being you – a student, a teacher or staff member of Oxford Hills/Nezinscot Adult Education. See you soon!

Adult Literacy Volunteers & Tutor Training

Find out how rewarding it is to make a difference for an adult learner. You may work individually with a student on math, literacy, or other basic skills, or assist a teacher in an academic lab. Make a difference in someone's life! Help them learn to read or finish their high school diploma.

You can even help someone improve their English language skills.

About Our Program

Our program offers a wide range of classes and programs in the basic education and ESOL, high school completion, *HiSET*® High School Equivalency Test, college transitions (college preparation), workforce training, and enrichment areas.

Many programs can be customized for business and industry to meet specific goals. Classes are offered throughout the day, evening, and year-round.

High School Completion/HiSET® /College Advising

Heidi Durgin, our Academic Student Advisor and College Transitions Coordinator, is available to help you complete your high school diploma or obtain your high school equivalency credential by passing the *HiSET*® exam.

Are you looking to attend college? We can help, by offering Accuplacer testing and college advising to put you on the path to success. Need help finding financial aid for

college? We can provide assistance completing the FAFSA application, finding and applying for scholarships, and applying to the college or trade school to put you on the path to higher education and better employment.

*Contact Heidi Durgin at
207-743-8842 ext. 1545
to schedule a meeting.*

Workforce & Career Advising

Our staff at Oxford Hills / Nezin-scot Adult Education will assist you with enrolling in one of our many workforce training programs and can advise you on which college, technical school, or vocational training will best match your skills and potential career field. Are you looking for a new job but need assistance writing a cover letter, put-

ting together a resume, or guidance on how to prepare for an interview? We can guide you through everything you need to be successful in your next job interview.

to schedule a meeting.*

Services & Program Offerings

Workforce Training & Certification

As a community partner, we strive to meet the many needs of today's workforce and the challenges they and their employers face. Our program currently offers many in-person certifications including Class A & B Commercial Driver's License and School Bus training, Certified Nursing Assistant & Certified Clinical Medical Assistant certifications, and Reiki certification.

We offer a wide-range of in-person and online computer courses. These courses can be taken to gain a certificate credential or broken out into individual courses to reinforce or improve your knowledge.

Our workforce program is growing and developing new trainings to meet the needs of local businesses and industry. If your business has training needs, please contact our office at 207-743-8842 to discuss what we can do for you.

Finance & Assistance

Sometimes financial obstacles prevent us from advancing in life. Let us help you and break through these barriers by finding grants and scholarships to pay for your training. Scholarship assistance may be available to eligible students in need of child care services during class times.

Recently, private entities and government initiatives have poured large sums of easy to access money into workforce training. This money is available to OUR LOCAL BUSINESSES to train your staff for new skills.

Contact our office at 207-743-8842 to find out more information.

Career, Technical & Workforce - Online

OHNAE in partnership with:

Administrative Assistant Fundamentals

Rapid growth in the health, legal services, data processing, management, public relations, and other industries has created many new job opportunities for administrative assistants. This course will help you discover and master the essentials of: managerial and staff support, information and records management, communications technology, travel and meeting coordination, space planning, and office ergonomics. You will become an indispensable member of your team by identifying opportunities and implementing solutions to turn your office into a high productivity machine. This course and its follow-up (Administrative Assistant Applications) may help you prepare for the internationally-recognized Certified Administrative Professional® (CAP®) exam offered by the International Association of Administrative Professionals® (IAAP®). **Note: This course is not affiliated with, nor has it been endorsed by, the International Association of Administrative Professionals® (IAAP®)**

Certified Administrative Professional

To be a successful administrative professional, you must possess the skills to handle a wide variety of workplace tasks and scenarios. The Certified Administrative Professional (CAP) course serves two purposes. First, it prepares you to take the CAP exam offered by the International Association of Administrative Professionals (IAAP). Second, it provides you with a broad selection of essential skills and knowledge to effectively work as an administrative assistant in fields including educational technology, government, and medicine. In this course, you will learn the basics of workplace administration, as well as how to begin and grow a successful career as an administrative professional. The course covers the intricacies of organizational communication, office and records management, and human resource fundamentals, among other topics. You will also learn to effectively write for business, produce documents, and utilize information technology. You will gain event and project management skills, which include virtual meeting coordination. As technology develops, this skill has become increasingly useful. Each course module concludes with a quiz, helping you to effectively track your progress and test your skills. This course includes a voucher which covers the fee for the exam.

Career, Technical & Workforce - Online

CompTIA A+ Certification Training

This course will prepare you for CompTIA A+ Certification. You can earn this certification after you pass the following two exams. The CompTIA A+ Certification Exam 220-1001 covers mobile devices, networking technology, hardware, visualization and cloud computing, and network troubleshooting. The CompTIA A+ Certification Exam 220-1002 covers installing and configuring operating systems, expanded security, software troubleshooting, and operational procedures. CompTIA A+ Certification is vendor neutral and internationally recognized, giving you a competitive advantage no matter what country you are working in and what hardware you are working with. This course offers enrollment with or without vouchers. The vouchers are prepaid access to sit for the certifying CompTIA A+ Certification exams (CompTIA 220-1001 and 220-1002) upon completion of the course and eligibility.

Computer Hacking Forensics Investigator (CHFI) (Voucher Included)

Digital forensics is vital to cybersecurity. This online course will prepare you for the EC-Council's Computer Hacking Forensic Investigator (CHFI) Certification exam, a credential that validates your understanding of digital forensic tools and how they are used in the cybersecurity industry. Digital forensics has a key place on every cybersecurity team. Without it, most organizations' security leadership will fail to see its full potential. This course takes a detailed, methodological approach to computer forensic and evidence analysis. You will gain a critical skill set for the identification of an intruder's footprints and gathering necessary evidence for prosecution. The course also includes a voucher with your enrollment, that covers the certifying exam fee upon eligibility. Scheduling and testing will be available through a remote proctor function.

Freight Broker/ Agent Training

The Freight Broker / Agent Training course provides you with the comprehensive training needed for building a successful freight brokerage or freight brokerage agency. This freight broker training course is designed to educate the student about the foundational aspects of brokering shipments. From learning the laws and terminology, setting up your business, learning about valuable tools and software, contracts and forms, how to find shippers and do ratings, and much more, it will provide you with the knowledge, insight, and direction to help you stand out in this growing industry. You will learn the differences between a broker and an agent, their various duties and responsibilities, and the laws and legal requirements for both. You will also learn how to develop important qualities and skills such as how to set your goals and market yourself, set up and organize your office, record keeping and back-office procedures, and how to choose brokerage and operating software. By course completion, you will understand the steps of setting up carrier and shipper packets and contracts, marketing and advertising avenues, rate quotes, how to interact with shippers and carriers to keep lines of communication open, and valuable negotiation skills.

Career, Technical & Workforce - Online

Video Game Design & Development

Video game design and development is challenging, but the rewards are worth it. With this unparalleled comprehensive training course, you'll master skills that open doors to the growing video game industry. By the end of the course, you will have designed and created your own video game for the PC, and will stand ready to join a team working on projects with larger scope, or pursue independent development. Using a comprehensive and analytical approach to game development, this course offers you the opportunity to learn how to effectively implement technical game ideas, assuming no prior training or experience. The curriculum is divided into four major areas of study: Programming languages, mathematic skills, game asset creation, and modern real-time game engines. It will conclude with an independent study phase which you will design, document, and create your own game using all of the programming and game art skills you learned in the core modules. This course is entirely online and is completed at your own pace.

Academics (*HiSET*® & Diploma)

Pre-registration for classes is necessary.
Call 207-743-8842 for more information.

Academic Lab/ Reading Lab

The Academic Lab is an opportunity for a student working on their diploma to meet with an instructor and continue academic progress toward subject-specific credit.

-Kate Molloy-

Advanced Numeracy & Pre-Algebra

This class continues where Basic Numeracy leaves off. You will review fractions, decimals and percentages, then on to ratios and proportions, and finish with Pre-Algebra.

-Kathleen Beauchesne-

Algebra

This course will review exponential and radical expressions. Then, students will explore and master functions, linear equations, systems, polynomials and quadratic equations. Students must have a knowledge of advanced numeracy to be successful in this class.

-Kathleen Beauchesne-

Astronomy

Students will study objects and matter outside the Earth's atmosphere including their physical and chemical properties, and will utilize the district's access to the observatory.

-Elijah Merrill-

Basic & Advanced Numeracy

Basic and Advanced Numeracy will help to improve your basic arithmetic skills. You will work in a small class on addition and subtraction up through fractions, decimals and calculating percentages. Building on these math functions, you will move on to ratios and proportions, and finish with Pre-Algebra.

-Kathleen Beauchesne-

Biology/Health Sciences

This course will help you build a basic knowledge of human biology and its connection to human health. The focus is upon human anatomy and physiology, common health concerns, nutrition, and their effects upon your overall health.

-Kate Molloy-

Academics (*HiSET*® & Diploma)

Pre-registration for classes is necessary.
Call 207-743-8842 for more information.

Civics

Students will study the rights and duties of citizenship.

-Elijah Merrill-

College Transitions Success

An introduction to the college environment and an opportunity to strengthen the academic skills necessary for success at the community college level.

-Kate Molloy-

Computer Literacy Basics

This required class covers the basic computer competencies necessary for academic credit.

-Kate Molloy-

Current Events

In this class students will digest news stories using various methods, such as news-mapping, graphing, summarizing, and editorializing, with the goal of making the news more relevant to students. News happens!

-Elijah Merrill-

Elements

& Principals of Art

This elective class will provide students with an opportunity to appreciate works of famous artists through the lens of Art Elements and Art Principles. Students will also represent these art concepts through independent projects.

-Kathleen Beauchesne-

English Composition I & II

Students work on two longer pieces of writing over the course of the semester. This course is individualized to meet the specific needs and interests of the student.

-Kate Molloy-

Financial Literacy

Students will learn the skills needed to make smart money management decisions for real life.

-Kate Molloy-

Academics (*HiSET*® & Diploma)

Pre-registration for classes is necessary.
Call 207-743-8842 for more information.

Fine Arts for Academic Credit

Students will discuss and complete a fine arts project with guidance from the instructor.

-Kathleen Beauchesne-

Geometry

Study the relationships among angles, polygons and 3D solids. You will practice these objectives through various lessons, skill practice and applications.

-Kathleen Beauchesne-

U.S. History I & II

The social, political and economic development of the United States from the Civil War Period through the mid 1900s is covered.

-Elijah Merrill-

Lifetime Pursuits

This elective class will provide multiple opportunities for students to engage in an active lifestyle. Let's go for a long walk, or take a short hike up to a scenic overlook. One class may be a bike ride. In another class we may try hitting golf balls! Students will receive diploma credit while trying out activities that they may love for their lifetime.

-Kathleen Beauchesne-

Math Diploma Lab

This course will help students improve their basic arithmetic skills. Students will work in a small class setting on addition and subtraction, multiplication, and division of whole numbers. Students will then study fractions, decimals, and percentages.

-Kathleen Beauchesne-

Academics (*HiSET*® & Diploma)

Pre-registration for classes is necessary.

Call 207-743-8842 for more information.

Music History

Music is in every known culture, past and present, varying widely between times and places. The emotions and ideas that music expresses, the situations in which music is played and listened to, and the attitudes toward music is played and composers all vary between regions and periods. Specific periods will be discussed based on student interest.

-Elijah Merrill-

Reading Lab

The primary goal of this course is to spark a love of reading within students. As a class, we will explore books of different genres and authors, styles and lengths until each student finds the one that interests them. The secondary goal is to introduce students to book discussion and light analysis.

-Elijah Merrill-

-Kate Molloy-

Science with Lab

Topics covered during this class will be determined based on individual student need for academic credit.

-Elijah Merrill-

-Kate Molloy-

Woodshop for Academic Credit

Woodshop isn't just a shop in which things are made from wood. Materials + effort = the stuff self-esteem is made from. Let's discover your potential.

-Elijah Merrill-

World History

Location, place, human-environment interaction, movement and region (the 5 themes of Geography) are applied to the study of the creation of the earliest human civilizations (The River Valley civilizations).

-Elijah Merrill-

Academics (*HiSET*® & Diploma)

HiSET

powered by 

Academics, HiSET & Diploma

Do You Lack A High School Diploma?

Are you ready to take the first step toward expanding your opportunities for college or a better career?

We can help you on your journey to earning your high school equivalency credential by passing the HiSET® exam. Receiving this credential may help open doors that have been closed to you previously. Contact us today at 207-743-8842 to get started!

HiSET® Test Prep Labs

Get ready to earn your High School Equivalency Diploma (the HiSET®) by taking this prep course. Topics are specific to the HiSET® tests.

Enrichment & Special Interest

Computer Basics

This course is for students who would like to learn the basics of personal computers. Whether you are brand new to computers or tired of being lost and confused, you will be shown the basics of using your home computer. Learn about the desktop, using folders, copy and paste, browsing the internet, using email, mouse buttons, keyboard functions, the start menu, and viruses.

\$60 - 4 Weeks

Class: Apr 3 – May 1

Wed, 6:00 - 7:30 PM

Steve Catanese - OHCHS

Cybersecurity Introduction

Course is online through a partnership with ed2go.com. This self-paced course is designed to help you increase your knowledge of cybersecurity and technology fundamentals to fill knowledge gaps in your current role or pursue an entry-level career in this in-demand field. We answer questions around what cybersecurity is, what an operating system does and the most common types, cloud computing, and many other topics related to cybersecurity foundations. You will have the opportunity to develop your foundational cybersecurity skills through hands-on demonstrations as you follow along with the instructor videos, learn time-saving tips to increase your efficiency, and establish best practices.

\$129 Class begin every month

To register, visit

Ed2go.com/ohadulted

Artificial Intelligence & Machine Learning Suite

Course is online through a partnership with ed2go.com. This course bundle will provide you with a foundation of practical knowledge on artificial intelligence (AI) and machine learning. You will begin with the science behind AI computer systems, which can perform tasks that typically require human intelligence, and AI ethics, applications, and more. Then you will move on to a more thorough look at machine learning, the problem it is trying to solve, and specific techniques and applications used in supervised, unsupervised, and semi-supervised learning.

\$230 Class begin every month

To register, visit

Ed2go.com/ohadulted

Beginning Beekeeping

This beginning course will cover the basics needed to begin the exciting hobby of beekeeping. Participants will be shown how to assemble hive equipment, use a smoker and veil, acquire bees and install them in a hive, inspect and manage a hive throughout the seasons, and produce honey.

\$75 - 6 Weeks

Class: Feb 26 – April 1,

Mon, 6:00 - 8:00 PM

Paula & Chris Easton - OHCHS

Enrichment & Special Interest

Knitting-Intermediate Socks or Mittens

Do you love the cozy warm feel of hand knit socks or a pair of mittens? Ever want to knit your own but just need a bit of guidance? You'll need to know the basic knit and purl stitches. Bring a set of size 2 double ended needles and 2 ply (fine)wool or acrylic yarn for the socks. For mittens bring a set of size 3 double ended needles and 4 ply (sport wt.) wool or acrylic yarn. Patterns will be provided.

\$30 - 4 weeks

Wed, March 6-March 27

6:00 – 7:30 PM

Instructor, Donna Marshall

Managing Your Woodlot – A Beginner's Course

This 6-week long program for Woodlot owners includes Tree identification, deeds and boundaries, timber harvesting, wildlife management, forestry taxes, forestry regulations, and working with a consulting forester. The instructor is Merle Ring, retired Maine Forest Service District Forester with 42 years of experience.

\$80

Class: March 7-April 11,

Thurs, 6:00 - 8:00 PM

Merle Ring - OHCHS

Driving Dynamics, Maine

This course covers collision-avoidance techniques and safety tips to help you become a better driver. These techniques will be discussed through lectures, videos, and classroom participation. Those completing the course will receive a three-point credit on their license record.

\$70 - 2 Days

Class: Wed, March 7
& Mon, March 25

6:00 - 8:30 PM

Changing Jobs: Finding Work That Fits

Are you considering a job change? This online class for women will help you identify work options and benefits that align with your interests, skills, and values. In three 60-minute class sessions, you will:

- Explore current local and statewide work and training opportunities
- Practice negotiating for better benefits and pay
- Connect with other women who are building confidence and exploring more rewarding careers

Being offered online, free of charge on Thursdays, Feb. 29, March 7 & 14, from 6:00 - 7:00 PM

Facilitator: Chris Morin of
NewVenturesMaine.org

One & Done

Camp Craft Basics

Learn from a Maine guide how to prepare for any outdoor adventure. This includes trip planning, wilderness survival and map and compass.

\$50 - Tues, May 14, 5:00-8:00 PM

Kevin Frost - OHCHS

Card Making - Stamp a Stack I & II

Students will create five different assorted sentiment cards with materials ready for you to stamp and assemble. Work your way through each station at your own pace, creating two of each for a total of 10 cards with envelopes.

\$35/Session - 1 Week

Session I: Mar 27, Session II: May 8

Wed, 5:30 - 8:30 PM

Rebecca Kostovick - OHCHS

CPR Certification

The CPR class includes adult, child and infant CPR and AED use, adult, child and infant choking, and how and when to call emergency services. The course cost includes use of the manikins, video, certified instructor, practical components, and a certificate of completion. The video portion has been shortened, and the practical time has been increased to ensure everyone has enough time to gain confidence in their skills. This class is taught to the standards established by American Heart Association. The workbook is not included with this class. If you would like a workbook, please indicate on your registration form. Cost is \$10 for the book, paid to instructor.

\$60 - 1 Week

Session I: Mar 20, Session II: May 14

5:30 - 8:30 PM

Charissa Kerr - OHCHS

Cupcake Creations

Learn basic skills that can be used to make lots of edible memories for you and your family. The icing will be provided by the instructor. You will need to bring at least 15 cupcakes as well as a simple decorator kit (Walmart-around \$10).

\$45 - 1 Week

Class: Tue, Mar 26, 6:00 - 8:30 PM

Dorene Vail - OHCHS

One & Done

First Aid Training

The First Aid class includes: medical emergencies, bleeding that you can see, bleeding you cannot see, treating for shock, and how and when to call emergency services. The course cost includes a blend of PowerPoint and video, instructor and practical components, and a certificate of completion. This class is taught to the standards established by American Heart Association. The workbook is not included with this class. If you would like a workbook, please indicate on your registration form. Cost is \$10 for the book.

\$40 - 1 Week

Class: April 9

Tues, 5:30 - 7:30 PM

Charissa Kerr - OHCHS

Instant Piano

In just a few hours, you can learn enough secrets of the trade to give you years of musical enjoyment. Learn to play piano the way professionals do using chords with this quick lecture/hands-on demonstration. Since this course includes an online book and with video lessons, you will be able to continue your practice and study on your own. An optional, periodic online question and answer session is also included in addition to a recording of the class.

\$59 - 1 Week

Class: April 15

Mon, 6:30 - 9:30 PM

Craig Coffman - ONLINE

Instant Guitar

Have you ever wanted to learn the guitar but simply find it difficult to find the time. In just a few hours you can learn enough about playing the guitar to give you years of musical enjoyment and you won't have to take private lessons to do it. This crash course will teach you some basic chords and get you playing along with your favorite songs right away. This class includes an online book and follow up video lessons to help you continue your practices and study on your own. An optional, periodic online question and answer session is also included in addition to a recording of the class.

\$59 - 1 Week

Class: April 16

Tues, 6:30 - 9:00 PM

Craig Coffman - ONLINE

Registrations, Fees, & Information

REGISTRATIONS

- Anyone 17 years and older is eligible to attend Oxford Hills/Nezinscot Adult Education. Additional requirements apply to students seeking their Diploma or HS Equivalency.

- Register early because courses fill quickly. (*Courses with insufficient advance enrollment will be canceled.*)

- Register by mail or online anytime before a class begins. Our office is open for walk-in registrations.

- Fees may be paid online by credit card only. A processing fee is charged for each course registration made by credit card. This fee is non-refundable.

- Payment must accompany registration. We do not send out written confirmation on registrations you mail to us. Your canceled check is your receipt.

- Fees are listed in each description and must be paid with registration. "Materials Fees" are listed for materials that an instructor needs you to have for their class; these fees are paid

directly to the instructor unless otherwise noted in the description.

- All courses have a registration fee unless otherwise noted.

- The Oxford Hills / Nezinscot Adult Education program reserves the right to alter courses scheduled and listed in this catalog to meet program needs and requirements. Proper notice will be given to registered students.

REFUND POLICY

- Refunds are given with 24 hour notice prior to first night of class. No refund is given after the first night of class.

- Registration fee: We will contact you if a course is canceled or already full and issue a full refund. Refunds take 2 - 3 weeks to process and are mailed to students.

WEATHER CANCELLATIONS

- Adult Education classes are canceled if the MSAD #17 School District cancels school due to inclement weather.

- To find out about cancellations listen to WOXO (92.7 FM), call the Adult Education office at 207-743-8842, check out our website: sad17.maineadulted.org or visit our Facebook page.

DISABILITY ACCESS STATEMENT

- Oxford Hills / Nezinscot Adult Education does not discriminate on the basis of race, gender, ethnicity, religion, national origin, age, sexual orientation, or disability. To request disability accommodations, call our office 207-743-8842.
